

How to Implement

Apply the 3 fixes in 48 hours — step by step

11 STEPS
~19 HOURS TOTAL

IMPLEMENTATION

Hero · Exit-Intent · Friction

TOTAL TIME

~19 hours over 48

COMBINED LIFT

+30–70% conversions

#1

Hero Section Upgrade

GOAL

Communicate value + drive action in 3 seconds.

- 1 Replace headline**
Use a clear outcome-driven promise.
- 2 Add subheadline**
Who it's for + how it works.
- 3 Use ONE primary CTA**
No competing buttons.
- 4 Add a result visual**
Show outcome or transformation.

COPY TEMPLATES

H: "Get [Result] Without [Pain Point]"

SUB: "Join [audience] using [service] for [outcome]."

CTA: "Start Your [Result] →"

💡 **PRO TIP** · If a visitor reads only headline + CTA, they should still understand exactly what you offer.

#2

Exit-Intent Pop-Up

GOAL

Recover abandoning visitors as leads.

- 5 Install exit-intent tool**
Triggers when cursor leaves screen.
- 6 Choose ONE offer**
Free case review, guide, or bonus.
- 7 Keep design simple**
Headline + short text + one CTA.
- 8 Connect to email platform**
For automated follow-up.

COPY TEMPLATES

H: "Wait! Before You Go..."

BODY: "Grab a free case review for a limited time."

CTA: "Unlock Now"

💡 **PRO TIP** · Keep friction low — ask only for email, no long forms.

#3

Reduce Funnel Friction

GOAL

Make next step as easy as possible.

- 9 Audit conversion path**
Landing → action — map every click.
- 10 Remove distractions**
Cut unnecessary steps + secondary CTAs.
- 11 Keep ONE goal per page**
Add trust signals near each CTA.

QUICK-FIX CHECKLIST

- Remove competing CTAs
- Make buttons visually obvious
- Seamless mobile experience
- Money-back guarantee near CTA
- "Submit" → "Get My Results"

💡 **PRO TIP** · Every extra click = lost revenue. Simplicity converts.

48-HOUR ROLLOUT TIMELINE

Recommended sequence
